# FGR Couplings
# Rep E and Grip E Couplings

New

This new coupling is time saving and eliminates the need to weld, thread, or flange. It is lightweight and compact, detachable and reusable, absorbs vibration and movement, and has a reliable double-lip sealing system.

## Rep E Coupling

### Applications

- Construction, water management, industrial pipelines, ship building
- Designed for the quick installation without service interruption

### Sizes

- Pipe O.D. sizes 1.315”-48”

### Features

- Axial nonrestraint
- Standard EPDM seal (NBR and FKM also available as specials)
- Joins pipes of same or dissimilar material; suitable for metal and plastic pipe connections
- Metal strip insert (only replaceable component)

| New Dixon part # | Description | Comparable to part # |
|---|---|---|
| 05729360048 | 1-1/2” 316 stainless steel Rep E pipe coupling | STR35001 |
| 05729360060 | 2" 316 stainless steel Rep E pipe coupling | STR35151 |
| 05729360073 | 2-1/2” 316 stainless steel Rep E pipe coupling | STR35201 |
| 05729360088 | 3" 316 stainless steel Rep E pipe coupling | STR35351 |
| 05729360114 | 4" 316 stainless steel Rep E pipe coupling | STR35651 |
| 05729360141 | 5" 316 stainless steel Rep E pipe coupling | STR35901 |
| 05729360168 | 6" 316 stainless steel Rep E pipe coupling | STR36051 |

The Right Connection®

## Grip E Coupling

### Applications

- Construction, water management, industrial pipelines, ship building
- Designed for the quick installation without service interruption

### Sizes

- Pipe O.D. sizes 1”-24”

### Features

- Heavy duty lock bars
- Anchoring ring with conically stamped teeth
- Axial restraint
- Standard EPDM seal (NBR and FKM also available as specials)
- Joins pipes of same or dissimilar material; best for metal to metal connections
- Metal strip insert (only replaceable component)
