24TH-Series Threadless Hanger

QUICK. CLEAN. EFFICIENT.

The 24TH-series threadless hanger from Dixon® Sanitary introduces a new level of efficiency and hygienic design to the hanger market.

This tube hanger incorporates a snap-secure latch system that simplifies and significantly reduces installation times by eliminating the standard thread design. The self-contained inserts guide and protect your tubing.

Applications

- · Mounted processing lines
- · Skid building

Sizes

· 1", 1-1/2", 2", 3", 4"

Features

- Partial open position allows for adjustment of tubing prior to final lock in
- · Threadless design and bacteria-resistant architecture
- The snap-in clip insert assembly makes this hanger easy to assemble
- Optionally compatible with our standard sleeve (inserts removed)
- Save time on installation with no tools needed
- · Meets MSS SP-58 load ratings

Specifications

- · Mounting: compatible with up to 3/4" diameter rod
- · Materials of construction
 - Top and bottom halves and latch: 304 stainless steel
 - Hook: 304 stainless steel spring wire
 - Clip inserts: polypropylene
 - Sleeve: polypropylene

Polypropylene Inserts

Polypropylene Sleeve

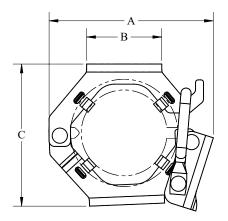

NOTE: The polypropylene inserts and sleeve are not to be used together
