ULSD	Ultra low sulfur diesel (ULSD) is a term used to describe a	B2	2% Bio diesel, 98% diesel (normally ULSD as above)
	standard for defining diesel fuel with substantially lowered sulfur contents. As of 2006, almost all of the petroleum based diesel	B20	20% Bio diesel, 80% diesel (normally ULSD as above)
	fuel available in Europe and North America is of a ULSD type.	B100	100% Bio diesel

* Petroleum companies often put additives in fuels, additives can affect compatibility with fittings and seals, Please contact Dixon[™] for more information. FKM GFLT is compatible with all liquids listed above and available from Dixon[™] by special quotation. Baylast[™] is a proprietary seal compound from Dixon[™].

4" API Valves

API Valves are used for bottom loading and unloading of petroleum tankers. Valve nose shape and opening comply with American Petroleum Institute standard (API RP-1004) enabling Dixon API valves to interchange with competitor items made to the same specification. Two styles are available; a load only model without handle and a load/unload model with a handle to allow manual opening.

- Unique flow and fluid level sight indicators are available
- Load/unload versions feature an ergonomically curved handle that opens with a short 62° stroke. Can be ordered with a fixed or removable handle
- Chemical resistant crank seals and poppet seal (PTFE seals optional)
- Any required maintenance is simplified, can be completely rebuilt without removing the valve from the tank
- The ALH (anodised aluminium hard coat) nose ring can be rotated to provide a fresh cam service to compensate for wear

TTMA Flanged Sight Flow Indicators

Features & Benefits:

5200-SFI shown mounted on petroleum tank

5200-SFI

Features & Benefits:

- Due to the proprietary blending of petroleum products, Dixon[™] recommends that the thermoplastic tubing and the gaskets be immersion tested in the product to be handled to ensure compatibility (not compatible with crude oil).
- Durable cast aluminium housing replaces competitions all acrylic sight glass commonly found on tank trucks
- Allows for visual identification of the fuel grade prior to opening the valve
- Works with tank truck flanged butterfly valves found on gasoline trucks
- Low cost sight glass tube can be easily replaced
- Rated to 150 PSI

PART NO.	DESCRIPTION
5200-SFI-3	3" TTMA flange sight fl ow, 134" width, 31/2" inside diametre
5200C-SFI-31	3" TTMA flange sight flow, 1 $\%$ " width, 3 $\%$ " inside diametre, stainless retain ring
5200-SFI	4" TTMA flange sight flow, 13/4" width, 4 " inside diametre
5200C-SFI1	4" TTMA flange sight flow, 1¾" width, 4 " inside diametre, stainless retain ring

¹ Are compatible with crude oil.

Note: Maximum flange bolt torque is 200 in-lb (inch pounds)

- Due to the proprietary blending of petroleum products, Dixon[™] recommends that the thermoplastic tubing and the gaskets be immersion tested in the product to be handled to ensure compatibility (not compatible with crude oil).
- Allows for visual identification of the fuel grade prior to opening the valve
- Works with tank truck flanged butterfly valves found on gasoline trucks
- Larger ID 4 " flow indicator allows tank truck flanged butterfly valves to connect to either end of the indicator
- Rated to 150 PSI

Manufactured to connect to vapour hose couplings

Aluminium body and buna seals, nylon * or acrylic * sight glass if equipped

- Rugged cast aluminium construction
- Variety of tank connections to suit any application, including 4" TTMA flange, 3" and 4" Female NPT and 4" female NPS
- Air interlock mounting pad. (VR4000 requires 5000AIV, other models can use the 5000AI, 5000AIS or 5000AIST interlock valves)
- VR4000 is a bulb design which allows for maximum vapour flow, also features 2 large acrylic sight glasses and a drain plug.
- Available with or without poppets. Poppeted versions prevent vapour from escaping from the tanker.
- · Easy seal replacement while still on the tanker
- Biofuel vapour compatible, up to E100 (100% Ethanol) and B20 (20% bio diesel).
- * Dependent upon part #, see part number list below for more details

Sequential Vapour Vents

Sequential vapour vents are used for venting tank vapours during the bottom loading and unloading of petroleum tankers. These pneumatically activated vapour vents can either be installed to open sequentially or to open independently. Vapour vents available to suit either 16" or 20" tank manholes.

- Highest flow vapour recovery vents
 on the market
- Baylast[™] seals resist chemical attack from fuel additives and alcohol
- Floating piston design ensures long life and resists poppet sticking
- Can be used for both sequential and non-sequential operation
- Quick and easy to rebuild with simple hand tools
- Tested vapour tight to 36 psi, certification 49 CFR 178.345-5
- Sealed system eliminates common leak points and improves reliability

Petroleum Products

API Bottom Rack Loading Fitting

Dixon API coupler uses a snap on connection where the coupling action is automatic upon contact with the API adapter. The coupler is completely modular so it can be built with various face seal combinations to be compatible with different alternative fuel, performance levels and applications. Two models are available: bonded nose seal and replaceable nose seal.

Material Specifications:

- Body: hard coated anodized AL 356 T6
- Shroud: hard coated anodized AL 356 T6, SS insert
- Link, shaft, pin and crank: hardened 17-4PH stainless steel
- Cam: CF8M stainless steel
- Poppet and bearing: ZA-12
- Seal options: Baylast[™], Viton-B[®], Viton[®] GFLT

Chemical Compatibility (Baylast[™] seals):

- Gasoline
- Diesel
- Avgas
- 100% ethanol
- 100% methanol
- B2 to B20 biodiesel blends

Technical Specifications:

- Weight: 9.1 kgs.
- Maximum working pressure: 150 PSI
- Peak surge pressure: 350 PSI
- Operating temperature: Viton[®] seals: -29°C (-20°F) to 204°C (+400°F) Baylast[™] seals: -29°C (-20°F) to 121°C (+250°F)
- Maximum flow rate: 600 GPM
- Pressure drop: 3 to 4 PSI

Chemical Compatibility (Viton-B[®] seals):

- Gasoline
- Diesel
- Jet fuel
- Avgas
- 100% ethanol
- 100% methanol
- 100% biodiesel
- Any blend of the above fluids

- 4" TTMA inlet mounting flange
- 5 cam design for easy alignment and tight connection
- · Ball-end handle for easy, comfortable operation
- No special tools needed for maintenance
- Shaft seals can be changed without removing coupler from loading arm
- · Fully compliant with API RP1004:2003 specifications
- Fully interlocked collar can not be opened when connected and can not be disconnected when opened
- One piece bonded nose seal ensures long life and cannot be washed out
- Optional replaceable nose seal for quick replacement without removal from loading arm

bonded nose seal model - 5300

Ball Nozzles for Bulk Delivery

The Bayco brand ball nozzle uses a full port ball valve for high flow rate at a given inlet pressure. The internal flow path is computer designed to provide low pressure drop across the nozzle. Lower pressure drop permits higher flow rates at lower pressure, reducing foaming or backups.

Our unique swivel design permits low temperature operation without leakage around the O-ring seals. The swivel freely rotate seven at temperatures as low as -40°C (-40°F) and pressures as high as 100 PSI. Through-hardened chrome steel roller balls and hardened carbon steel ball race provide long service life.

- Standard nozzle uses a 3 PSI check valve. An optional 5 PSI check valve is available as a field replaceable kit
- Available with a field replaceable Scully compatible connector or tube spout

Note: Nozzles also available in BSPP thread.

Swivel Nut Pipe Adapters for Ball Nozzles

Nozzle connectors are manufactured from rugged cast bronze. Short body reduces overall length of nozzle. Interchangeable withother manufacturers. For home fuel oil delivery.

SWIVEL NUT PIPE ADAPTERS FOR BALL NOZZLES				
PART NO.	DESCRIPTION			
BL002 BL001 BL005	1¼" male NPT 1½" male NPT fine thread			

Note: Some fuel additives are not compatible with certian seal materials. Please contact the Factory for fuel additive compatibility.

One Way Full Flow Ball Valves

Application:

One way full flow ball valves are often used to control the flow of products from tanker compartments.

Manufactured with 2", 3" or 4" female NPT, socket weld to Schedule 40 or grooved ends.

Standards:

- Materials:
- Features & Benefits:
- Aluminium body, aluminium and stainless steel wetted parts, FPM (FKM and PTFE seals).
- High flow with low pressure drop
 Working pressure of 150 PSI at 21°C (70°F)
- Valve spindle can be disassembled with valve installed.

Two Way-3 Port Diverting Ball Valves

Application:Two way diverting ball valves are often used to diverting or mixing products between tanker
compartments.

Manufactured with 2", 3" or 4" female NPT, socket weld to Schedule 40 or grooved ends.

Aluminium body, aluminium and stainless steel wetted parts, FPM (FKM and PTFE seals).

Materials:

Standards:

- Features & Benefits:
- High flow with low pressure drop
- Working pressure of 150 PSI at 21°C (70°F)
- Valve spindle can be disassembled with valve installed.

Bolted Manhole/Manlid

Application:

Aluminium Manlid has an industry standard 24-hole bolt pattern sized for M8 bolts. The cover has provisions for a vapour recovery vent, overfill protection sensor and dip tube and complete with PAF 7545 pressure relief valve (PRV) and a 6866AL normal vent.

The manhole assembly conforms to ADR 2009, EN13314:2002, EN13317:2002, EN14595:2005, EN14596:2005, SANS 1518:2008 and AS2809.2-2008 drop test requirements.

PART NO.	DESCRIPTION
DML1001	Manlid

Pneumatic Foot Valve

Application:

The ADR/EN Pneumatic Foot valve body is constructed of aluminium and features a shear section which meets break-away requirements of EN13308 and TTMA RP 84 per 49CFR§178.345-8.

A heavy mounting flange is provided to insure a flat gasket surface, and a jack screw is included in the event of an air system failure.

The valve features an interlock system for sequential actuation of other components or indicator signals. A stainless steel screen prevents objects in the tank from entering the piping.

- Maximum Operating Pressure is defined as the maximum tank pressure that valve can open against w/ given air-line pressure.
- Maximum Operating Pressure is 21 psi with 80 psi line pressure and 27 psi with 100 psi line pressure.
- The Valve MAWP is 73 psi [5 bar]
- Minimum Shell Strength is 365 psi [25 bar]

Standard and Low Profile options are available.

PART NO.	DESCRIPTION
DFTV100-SP	Standard Foot Valve
DFTV100-LP	Low Profile Foot Valve

Product Grade Indicator

Application:

This indicator unit is designed to be mounted near the API discharge valves on road tankers. Multi product grade indicators are available individually and are used by simply the pulling and turning of the handle until the required information is displayed

PART NO.	DESCRIPTION
DBP1080	Product Grade Indicator

Tanker Reeling Hose

Application:

- Designed for use with DIN smooth tail couplings and clamps.
- Sold as 60m assemblies' c/w 2817 fittings. Spring guard optional.
- Suitable for diesel, domestic oils and fuels.
- Red, oil, abrasion, ozone & UV resistant cover.
- Maximum Working Pressure: 17 bar positive.
- Temperature Range: -20 deg C to +70 deg C.
- 35mm Nominal Bore other sizes available on request

PART NO.	DESCRIPTION
A420035-60MF-T	Tanker Reeling Hose Assembly

FloTech[™] Overfill Prevention Products

FloTech[™] Overfill Prevention Products

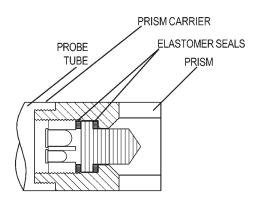

Overfill detection for road tankers is a secondary emergency shut-off system used to prevent overfilling of tanker compartments during the terminal loading process. When an overfill situation is detected, the system will override and shut down the terminal pump/metreing equipment filling the tanker compartment(s).

The system consists of overfill sensing devices, which are electronically connected to controls at the terminal through a plug and socket connection. Often on board tanker monitors are employed to inform on the loading process and provide diagnostic data should a problem occur. Monitors also translate electronic signal formats for different operating systems which may exist between the trailer and terminal. The two signal formats used are known as optic and thermistor and are defined by API as Standard #1004. FIoTech[™] products specifications for bottom loading and are approved by FM and CSA. Products are manufactured in accordance with EN13922.

Dixon manufactures a full line of sensors, monitors and sockets compatible with Scully and Civacon systems as well as complete overfill kits.

Principals of Operation

Knowledge and Experienced Design

Dixon employees have vast experience in electronics, manufacturing and most important, with the in-the-field trouble shooting of overfill terminal and tanker installation. That is why we have focused on easy, drop-in replacement features with improved probe life, and why Dixon have included heavy duty hardware made from premium, corrosion resistant materials.

Trouble Free Probes and Sensors:

FloTech[™] brand probes/sensors do not use epoxy bonded prisms as a means to seal the prism. Therefore, they are not subject to malfunction due to epoxy/prism interface separation. FloTech[™] brand probes/

sensors incorporate a double elastomer design which seals and secures the sensitive optic prism tip. The elastomer seals are flexible allowing thermal expansion and resistance to steam cleaning and petroleum chemical attack.

"Best in Class" Technical Support

Dixon provide the most reliable overfill components and systems available on the market today. Over the years the FloTech[™] brand has earned a reputation for reliable overfill components compatible with other common systems. FloTech[™] brand items are shipped with easy to follow installation instructions and manuals.

Easy Installation

FloTech[™] brand components are manufactured to be installed easily, even on other systems. They have been designed to be drop-in compatible with API systems being used around the world.

Products In Stock, Delivered On Time

Dixon realise that downtime costs you money so we do everything we can to ensure you receive your parts when you need them.

A Great Product With An Unparalleled Warranty

FloTech[™] brand products are covered by a five year limited warranty. The warranty is part of the total system that makes FloTech[™] overfill detection the best choice for your operation.

FloTech[™] Checkmate Overfill/Retain Plug-n-Play System

Application:	The reason for many overfill system breakdowns is failed or poor wiring connections. The required amperage within the overfill system is so low that any poorly wired or corroded wiring connections tend to fail (the low current cannot pass through corrosion or poor connections). To remove the possibility of wiring system problems, Dixon [™] has introduced the FloTech [™] .
	Plug-n-Play system, all the wire connections are prewired and tested at the factory using high quality weather proof cables and plugs. Plug-n-Play system installation takes a fraction of the time to install when compared to conventional systems, just mount all the components and simply plug them all together.
Standards:	Manufactured to American Petroleum Institute standard API RP-1004, which allows for interchangeability.
Materials:	Dependent upon the component, see each product section for materials.
Features & Benefits:	 Prewired cables and plugs on sensors, wiring harness', onboard monitor and sockets, make it simple to install our Plug-n-Play system in much less time than conventional systems.
	 Secure and weather tight connections all the time remove the possibility of poor wiring connections. Sealed connectors pass IP67 and DIN40050 salt spray tests.
	 Easy installation: literally Plug-n-Play, just mount the components and plug them all together.
	 Biofuel compatible up to E100 (100% Ethanol) and B100 (100% bio diesel)

Monitors with Integrated Dual Sockets

Features & Benefits:

• Integrated Optic and Thermistor dual sockets with onboard monitor all in one aluminium case

- Takes less space than utilising separate sockets and monitor
- Prewired and factory tested with Plug-n-Play cabling and plugs, eliminates hours of manual crimped wire connections and removes the problems and worries associated with connection problems.
- Includes water-tight integrated fuse holder, all stainless steel hardware and terminal blocks prevent corrosion
- Built-in configurable high current relay output for pump or signal control
- · Colour coded display shows well on trailers
- Sockets come standard with FloTech[™] unique guaranteed for life stainless steel wear rings.

Available Integrated Options: • Top (overfill) only monitoring, or both top (overfill) and bottom (retain) monitoring

- Pre-wired ground bolt
- Pre-wired pressure sensor which can be used to interlock brakes or vapour vents
- Pre-wired TIM module
- Pre-wired dual male pin power cord

Biofuel Compatible

FloTech[™] Checkmate Overfill/Retain Plug-n-Play System Stand Alone Monitors

Features & Benefits:

- Prewired and factory tested with Plug-n-Play cabling and plugs, eliminates hours
 of manual crimped wire connections, and removes the problems and worries associated
 with connection problems
 - Includes water-tight integrated fuse holder, all stainless steel hardware and terminal block within the aluminium housing
 - High tech colour coded display shows well on trailers
 - Monitors include advanced diagnostic capabilities as well as signal translation abilities for all socket types (optic, thermistor or float). The system offers true load at any rack compatibility.
- Available Integrated Options: Top (overfill) only monitoring, or both top (overfill) and bottom (retain) monitoring.

PART NO.	DESCRIPTION
FT208P	Checkmate monitor with Plug-n-Play connectors, top overfill protection only
FT208PP	Checkmate monitor with Plug-n-Play connectors, top overfill and bottom retain detection
FT208PPC	Checkmate monitor with Plug-n-Play connectors, top overfill and bottom retain detection, for Canadian 'B' trains
FT208PSS	Checkmate monitor with Plug-n-Play connectors, dual pressure switches
FT208LCM	Checkmate Load Control Monitor
FT220	Alarm module with sonalert
FT295	Alarm interface module assembly

See page 130 for repair kits and replacement parts.

Stand Alone Socket Assemblies

Features & Benefits:	 Prewired and factory tested with Plug-n-Play cabling and plugs, eliminates hours of
	manual crimped wire connections, and removes the problems and worries associated
	with connection problems

- Aluminium housings, with either aluminium hardcoat or stainless steel wear rings, stainless steel contact pins
- Dual and triple socket assemblies take less space than multiple single sockets.
- Available Integrated Options: Pre-wired internal ground wire (dual or triple socket assemblies)
 - Pre-wired TIM module (dual or triple socket assemblies)
 - FT300P and FT301P sockets are available with FloTech[™] unique guaranteed for life stainless steel wear rings as options. Plug-n-Play dual and triple sockets come standard with guaranteed for life stainless steel wear rings.

PART NO.	DESCRIPTION
FT300P	Single socket with Plug-n-Play connector. API Optic, 6 contact pins and 3 J slots (U.S.)
FT300PG	Single socket with Plug-n-Play connector. API Optic, 6 contact pins and 3 J slots (U.S.). With internal ground wire.
FT301P	Single socket with Plug-n-Play connector. API Thermistor, 8 contact pins and $4 \ J$ slots (U.S.)
FT306P	Single socket with Plug-n-Play connector. Optic J560 type
FT390PG-20	Dual socket assembly with Plug-n-Play connector on 20 ft cable. API Optic, 6 contact pins and 3 J slots, and Thermistor,10 contact pins and 4 J slots. Internal ground wire. Guaranteed for life stainless steel wear rings included. (U.S.)
FT394P	Triple socket assembly with Plug-n-Play connector. API Optic, 6 contact pins and 3 J slots, Thermistor,10 contact pins and 4 J slots, and Optic J560 type. Guaranteed for life stainless steel wear rings included. (U.S.)
FT394PG	Triple socket assembly with Plug-n-Play connector. API Optic, 6 contact pins and 3 J slots, Thermistor,10 contact pins and 4 J slots, and Optic J560 type. With internal ground wire. Guaranteed for life stainless steel wear rings included. (U.S.)
FT394VP	Triple socket assembly in a vertical socket arrangement with Plug-n-Play connector. API Optic, 6 contact pins and 3 J slots, Thermistor,10 contact pins and 4 J slots, and Optic J560 type. Guaranteed for life stainless steel wear rings included. (U.S.)
FT394VPG	Triple socket assembly in a vertical socket arrangement with Plug-n-Play connector. API Optic, 6 contact pins and 3 J slots, Thermistor,10 contact pins and 4 J slots, and Optic J560 type. With internal ground wire. Guaranteed for life stainless steel wear rings included. (U.S.)
FT395P-20	Triple socket assembly with Plug-n-Play connector on 20' cable. Optic, 6 contact pins and 4 J slots, Thermistor,10 contact pins and 4 J slots, and Optic J560 type. Guaranteed for life stainless steel wear rings included. (Canada)
FT395PG-20	Triple socket assembly with Plug-n-Play connector on 20' cable. Optic, 6 contact pins and 4 J slots, Thermistor,10 contact pins and 4 J slots, and Optic J560 type. With internal ground wire. Guaranteed for life stainless steel wear rings included. (Canada)
FT391P-20	Dual socket Plug-n-Play assembly with 4-J slots; 20 feet of Plug-n-Play cable

FT390PG-20

FloTech[™] Checkmate Overfill/Retain Plug-n-Play System Overfill Sensors

Features & Benefits:

- Overfill detection sensors are intended to detect a pending overfill condition inside the fuel tank compartment. When they are wetted (come in contact with the fuel) they signal the fuel loading rack to close the fuel supply control valve, to prevent a spill of product
- Prewired and factory tested with Plug-n-Play cabling and plugs, eliminates hours of manual crimped wire connections, and removes the problems and worries associated with connection problems. Easy to install, just mount the housing into the tank and plug the cables together
- Trouble free probes: FloTech[™] brand probes incorporate a double elastomer design which seals and secures the sensitive glass optic prism tip. The elastomer seals are flexible allowing thermal expansion and resistance to steam cleaning and petroleum chemical attack
- Custom lengths available upon request
- The FT151P series sensor housing contains a Plug-n-Play probe in a cast aluminium housing. The sensor housing has a 2" NPT mounting thread, heavy duty stainless steel hardware, and FKM probe seal. Install into either a 2" NPT threaded port or a 2 " diametre tank opening using the gasket and locking nut provided. All screws and rings are heavy duty stainless steel for easy assembly and long life
- BSPT option available.

PART NO.	DESCRIPTION
FT151P-ATEX	Housing with 7" Plug-n-Play probe, with Plug-n-Play harness connector NPT
FT151P-12-ATEX	Housing with 12" Plug-n-Play probe, with Plug-n-Play harness connector NPT
FT151P-18-ATEX	Housing with 18" Plug-n-Play detection probe, with Plug-n-Play harness connector NPT
FTE151P-ATEX	Housing with 7" Plug-n-Play probe, with Plug-n-Play harness connector BSPT
FTE151P-12-ATEX	Housing with 12" Plug-n-Play probe, with Plug-n-Play harness connector BSPT
FTE151P-18-ATEX	Housing with 18" Plug-n-Play detection probe, with Plug-n-Play harness connector BSPT
II 1G, Ex ia IIB T4 Ga; Ta	= -40°C to + 70°C.

REPLACEMENT PROBES		
PART NO.	DESCRIPTION	
FT150P	Replacement 7" Plug-n-Play probe with Plug-n-Play harness connector	
FT150P	Replacement 12" Plug-n-Play probe with Plug-n-Play harness connector	
FT150P	Replacement 18" Plug-n-Play probe with Plug-n-Play harness connector	

Retain Sensors

Features & Benefits:

- Retain sensors inform the loading terminal if the tank compartments are empty, or if there is product left in the tank prior to re-loading the tank (product has been retained)
- Prewired and factory tested with Plug-n-Play cabling and plugs, eliminates hours of manual crimped wire connections, and removes the problems and worries associated with connection problems. Easy to install, just mount the housing into the tank and plug the cables together
- Trouble Free Probes: FloTech[™] brand probes/sensors incorporate a double elastomer design which seals and secures the sensitive optic prism tip. The elastomer seals are flexible allowing thermal expansion and resistance to steam cleaning and petroleum chemical attack
- The FT152 sensor is a bottom retain detection sensor. Sensor is shipped with a ½" NPT weld-on aluminium half coupling for mounting. The main sensor portion is stainless steel to prevent galling in the tank. The wiring box is plastic to prevent corrosion.

Biofuel Compatible

FloTech[™] Checkmate Overfill/Retain Plug-n-Play System Wiring Harnesses

Features & Benefits:

- Prewired and factory tested with Plug-n-Play cabling and plugs, eliminates hours of manual crimped wire connections, and removes the problems and worries associated with connection problems. Easy to install, just mount all the components (sensors, sockets, monitors) onto the tank and plug them into the preconfigured harness
- Plug-n-Play cable harnesses come preconfigured for the type of tank (truck mounted tanks or for full length tank trailers) the number of tank compartments, standard harnesses have been designed to fit most standard tank configurations
- Custom length harnesses are available
- Secure and weather tight connections all the time, remove the possibility of poor wiring connections. Sealed connectors pass IP67 and DIN40050 salt spray tests.

OVERFILL DETECTION PLUG-N-PLAY CABLE HARNESSES FOR FULL LENGTH TANK TRAILERS	
PART NO.	DESCRIPTION
FT20801	One compartment tank trailer. Overfill detection (top) cable harness with Plug-n-play connections
FT20802	Two compartment tank trailer. Overfill detection (top) cable harness with Plug-n-play connections

FloTech[™] Checkmate Overfill/Retain Black & White 2 Wire System Monitor, Overfill Sensors, Replacement Probes and Retain Sensors

Checkmate Onboard Monitors

Features & Benefits: · Easy to follow programming guide for up to eight compartments top only or top and bottom service with the same monitor Monitor can be programmed up to 100,000 times without sending it back to the factory · Stainless steel terminal blocks resist rusting of contacts · Stainless steel hardware is used on all products · Powder coated colour matched components for exceptional appearance · Auxiliary input for Hobbs type switches · Power control relay output • Drop-in compatibility with competitors products, see compatibility chart on pages 50-53. • Wide input power 12-24 VDC Monitors include advanced diagnostic capabilities as well as signal translation abilities for all socket types (optic, thermistor or float). The system offers true load at any rack compatibility. Available integrated options: • Optional FloTech[™] Data Link[™] feature (patent pending) is only available on Checkmate model onboard monitors. Data Link™ gives maintenance staff the ability to download the performance and diagnostic history of the overfill system. Plug the FloTech™ hand-held diagnostic terminal, into the Checkmate monitor and download to your PC. A time and date stamped report is generated, showing the history of every wetted or failed sensor, rack connection, auxiliary input and load/unload data.

Retain Sensors

Features & Benefits:

- Retain sensors inform the loading terminal if the tank compartments are empty, or if there is product left in the tank prior to re-loading the tank (product has been retained).
- Sensor is shipped with a 1/2" NPT weld-on aluminium half coupling for mounting. The main sensor portion is stainless steel to prevent galling in the tank. The wiring box is nylon to prevent corrosion and is removable to facilitate installation. Our three port housing design is compatible with previous inline and parallel dual port housing.

Biofuel Compatible

FT152

FloTech[™] R/OM Type Overfill Detection Systems (Top Detection Only)

Features & Benefits:

- FloTech[™] brand overfill system kits provide everything needed to install a new overfill system on your tank. One to six compartment kits are available from our inventory. Systems include: 1 FT204P monitor, 1 FT202 overfill sensor per compartment, FT401 (100') cable and FT402 (20 pieces) strain reliefs (cable glands). Sockets, inline fuse and instruction booklet sold separately.
- Other probe lengths are available

PART NO.	DESCRIPTION
FT2101	R/OM type, 1 compartment system (top only)
FT2102	R/OM type, 2 compartment system (top only)
FT2103	R/OM type, 3 compartment system (top only)
FT2104	R/OM type, 4 compartment system (top only)
FT2105	R/OM type, 5 compartment system (top only)
FT2106	R/OM type, 6 compartment system (top only)
FT2101-12	R/OM type, 1 compartment system (top only) - 12" probes
FT2102-12	R/OM type, 2 compartment system (top only) - 12" probes
FT2103-12	R/OM type, 3 compartment system (top only) - 12" probes
FT2104-12	R/OM type, 4 compartment system (top only) - 12" probes
FT2105-12	R/OM type, 5 compartment system (top only) - 12" probes
FT2106-12	R/OM type, 6 compartment system (top only) - 12" probes

FloTech[™] R/OM Type Overfill and Retain Red and Black 2 Wire Systems

Features & Benefits:

- FloTech[™] brand overfill system kits provide everything needed to install a new overfill system on your tank. One to six compartment kits are available from our inventory. Systems include: 1 FT204P monitor, 1 FT202 overfill sensor and 1 FT206 retain sensor per compartment, FT401 (100') cable and FT403 (30 pieces) strain reliefs (cable glands). Sockets, inline fuse and instruction booklet sold separately.
- Other probe lengths are available

PART NO.	DESCRIPTION
FT2001	R/OM type, 1 compartment system (overfill and retain)
FT2002	R/OM type, 2 compartment system (overfill and retain)

FloTech[™] R/OM Type Onboard Monitors and Overfill Sensors

Checkmate R/OM Type Onboard Monitors

Features & Benefits:

- Easy to follow programming guide for up to six compartments top only or top and bottom service with the same monitor
- Monitor can be programmed up to 100,000 times without sending it back to the factory.
- As the monitor is programmed for the number of compartments, terminators are not required.
- Stainless steel terminal blocks resist rusting of contacts
- Stainless steel hardware is used on all products
- Powder coated colour matched components for exceptional appearance
- Auxiliary input
- Wide input power 12-24 VDC
- Drop-in compatibility with competitors products, see compatibility chart on pages 50-53.
- Monitors include advanced diagnostic capabilities as well as signal translation abilities for all socket types (optic, thermistor or float). The system offers true load at any rack compatibility.

FT204P

CHECKMATE R/OM TYPE ONBOARD MONITORS	
PART NO.	DESCRIPTION
FT204P	FloTech™ R/OM type programable monitor & housing.
FT203P	FloTech™ R/OM type programable replacement monitor only. (no housing)
FT203PSPEC	FloTech [™] R/OM type programable replacement monitor with 8-hole cover. (no housing)

FloTech[™] R/OM Type Overfill Sensors

Features & Benefits:

- Overfill detection sensors are intended to detect a pending overfill condition inside the fuel tank compartment. When they are wetted (come in contact with the fuel) they signal the fuel loading rack to close the fuel supply control valve, to prevent a spill of product.
- The FloTech[™] optic 2 wire probe is electronically and mechanically compatible for drop-in replacement of other commonly used 2-wire probes with red and black wires, such as the Civacon ROM system.
- All FloTech[™] brand probes are trouble free probes they come with a unique dual elastomer seal for the glass optic prisms. The elastomer seals are flexible allowing thermal expansion and resistance to steam cleaning and temperature changes, along with resistance to petroleum chemical attack. The replacement probes have a smooth tapered tip design for easy replacement installation into the sensor housing without gasket damage.
- Custom probe lengths available upon request
- The sensor housing contains a red and black 2 wire probe, in a cast aluminium housing. The sensor housing has a 2" NPT mounting thread, heavy duty stainless steel hardware, and FKM probe seal. Install into either a 2" NPT threaded port or 2 " diametre tank opening using the gasket and locking nut provided. All screws and rings are heavy duty stainless steel for easy assembly and long life.

FLOTECH [™] R/OM TYPE OVERFILL SENSORS	
PART NO.	DESCRIPTION
FT202-ATEX	Housing with 7" red and black 2 wire overfill detection probe
FT202-12-ATEX	Housing with 12" red and black 2 wire overfill detection probe

FloTech[™] R/OM Type Overfill/Retain Red and Black 2 Wire Systems

Features & Benefits:

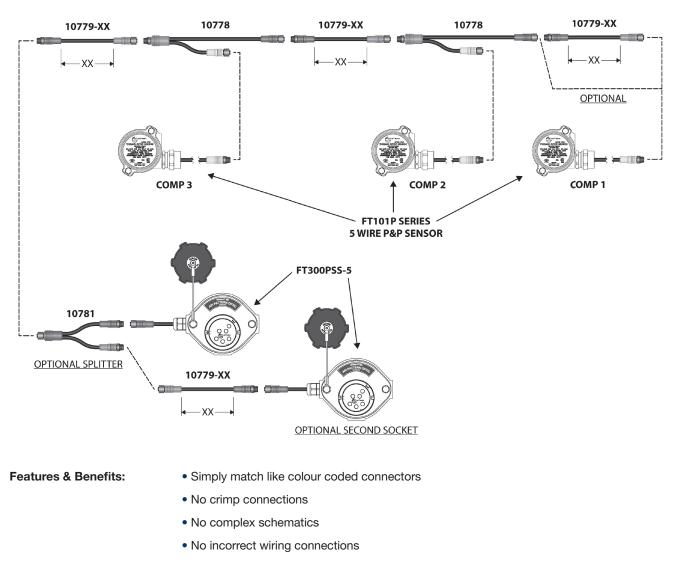

- The FT206 sensor is a retain detection sensor. Sensor is shipped with a ½" NPT weld-on aluminium half coupling for mounting. The main sensor portion is stainless steel to prevent galling in the tank. The wiring box is plastic to prevent corrosion and is removable to facilitate installation. The side ports come out of the same side (like the overfill sensors) to make wiring easier. The FT206 is compatible with Civacon model 1000 and the Civacon R/ OM System. Our three port housing design is compatible with previous inline and parallel dual port housings.
- Trouble free probes: FloTech[™] brand probes/sensors incorporate a double elastomer design which seals and secures the sensitive optic prism tip. The elastomer seals are flexible allowing thermal expansion and resistance to steam cleaning and petroleum chemical attack.

10779-600	5 wire plug and play harness extention - 600" (15240mm)

Biofuel Compatible

FloTech[™] API Optic 5 Wire Overfill Detection Systems

Application:	The FloTech [™] API Optic 5 wire system is perfectly suited for both new and existing tank installations. The components have a long list of features which make them more reliable than competitor products; the result is years of trouble free service.
	The FloTech [™] API Optic 5 wire system is a conventionally wired system, which requires wiring connections to be made using crimp connectors. If a simple plug together system is desired, please see our Checkmate Plug-n-Play system as shown on pages 36 - 40.
Standards:	Compatible with the Scully brand 5 wire optic system. The components are drop-in replacements and compatible with the signal format required by Scully brand API Optic 5 wire on-board monitors.
Materials:	Dependent upon the component, see each product section for materials
Features & Benefits:	 See the features and benefits of each of the system components Biofuel compatible up to E100 (100% Ethanol) and B100 (100% bio diesel)

FloTech[™] API Optic Overfill 5 Wire Systems (Top Detection Only)

Features & Benefits:

- FloTech[™] brand overfill system kits provide everything needed to install a new overfill system on your tank. One to six compartment kits are available from our inventory. Systems include: 1 FT103 monitor, 1 FT101 overfill sensor per compartment, FT400 cable and FT402 strain reliefs (cable glands).
- Other probe lengths are available

PART NO.	DESCRIPTION

Stainless Steel Black and White 2 Wire Probes and Sensor Housings

Features & Benefits:

- The FloTech[™] stainless steel probes and sensor housings are designed to be used with chemicals. All wetted services are 316 stainless or PTFE. These probes are designed to thread onto a DOT 407 tank 3" clean out nipple
- All FloTech[™] brand probes are trouble free probes, they come with a unique dual elastomer seal for the glass optic prisms. The elastomer seals are flexible allowing thermal expansion and resistance to steam cleaning and temperature changes, along with resistance to petroleum chemical attack. The replacement probes have a smooth tapered tip design for easy replacement installation into the sensor housing without gasket damage
- Custom probe lengths can be available by using 3/4" pipe nipples upon request

PART NO.	DESCRIPTION
FT150S	7" 316 stainless steel-black and white 2 wire, overfill detection probe only (no housing)
FT191S	Stainless steel probe housing. 3" female NPS thread (housing only, order probe separately)

Stainless Steel 5 Wire Probes and Sensor Housings

Features & Benefits:

- The FloTech[™] stainless steel probes and sensor housings are designed to be used with chemicals. All wetted services are 316 stainless or PTFE. These probes are designed to thread onto a DOT 407 tank 3" clean out nipple. Sensor length can be adjusted using ¾" NPT pipe nipples
- All FloTech[™] brand probes are trouble free probes: they come with a unique dual elastomer seal for the glass optic prisms. The elastomer seals are flexible allowing thermal expansion and resistance to steam cleaning and temperature changes, along with resistance to petroleum chemical attack. The replacement probes have a smooth tapered tip design for easy replacement installation into the sensor housing without gasket damage

PART NO.	DESCRIPTION
FT100S	7" 316 stainless steel 5 wire overfill detection probe only (no housing)
FT191S	Stainless steel probe housing, 3" female NPS thread (housing only, order probe separately)

See page 141 for repair kits and replacement parts.

Single Sockets

Features & Benefits:

- Single face plate sockets have hard coated aluminium alloy J slot wear rings, these ensure a long service life. Also available are single sockets with "guaranteed for life" stainless steel wear rings
- Stainless steel hardware and contact pins prevent corrosion
- Sockets and caps are colour coded with industry standardized colours which allows for easy identification of socket type (optic sockets are blue, thermistor sockets are green, and float sockets are red, coloured caps are included for optic and thermistor models only)
- Sockets with m20x1.5 cable entry holes available

ALUMINIUM HARDCOAT J SLOT	
PART NO.	DESCRIPTION
FT300	Optic socket API / WOGA, 6 pin and 3 J-slots (US)
FT300E	Optic Socket API/WOGA, as above c/w M20x1.5 cable entry holes
FT300GW	Optic Socket API / WOGA, 6 pin and 3 J-Slots with ground wire
FT300VI	Optic Socket API/WOGA, 6 pin and 3 J-slots with vapour recovery interlock
FT307	Optic socket, 6 pin and 4 J-slots (Canada)
FT306	Optic socket, J560 pin type
FT301GW	Thermistor socket, API, 8 pin and 4-J slots with ground wire
FT304	Thermistor socket, 10 pin and 4 J-slots (Canada, Europe)
FT304BVI	Square Housing 10pin and 4 J-Slots c/w brake and vapour interlock (Canada, Europe)
FT304E	Thermistor socket, as above c/w M20x1.5 cable entry holes
FT305	Thermistor socket, J560 pin type
FT302	Float, API, J560 pin type socket
Replacement face	plates and dust caps
FT310	API optic face plate assembly, 6 pin. 3-J slots (US)
FT313	Optic pattern contact assembly with thermistor, 6 pin, 4-J slots (US)
FT317	Optic pattern face plate assembly ,6 pin, 4-J slots (Canada)
FT316	Optic replacement face plate, J560 type
FT311	API thermistor face plate assembly, 8 pin, 4-J slots (US)
FT314	Thermistor face plate assembly, 10 pin 4-J slots. (Canada/Europe)
FT315	Thermistor replacement face plate, J560 type
FT320	Replacement blue optic dust cap
FT321	Replacement green thermistor dust cap

GFL series stainless steel nose rings are now available on any configuration J-slot socket that you require. Stainless steel J-slots outlast competitor versions because they are tougher and more corrosion resistant than any other on the market.

US patent 6,824,423.

GFL (GUARANTEED FOR LIFE) STAINLESS STEEL J SLOT WEAR RINGS			
PART NO.	DESCRIPTION		
FT300SS	Optic socket API / WOGA, 6 pin and 3 J-slots, GFL stainless J slot wear ring (US)		
FT300SSGW	Optic socket API / WOGA, 6 pin and 3-J slots, GFL stainless J slot wear ring with ground wire		
FT303SS	Optic socket, 6 pin and 4 J-slots, GFL stainless J slot wear ring (US)		
FT307SS	Optic socket, 6 pin and 4 J-slots, GFL stainless J slot wear ring (Canada)		
FT301SS	Thermistor socket, API, 8 pin and 4 J-slots, GFL stainless J slot wear ring (US)		
FT301SSGW	Thermistor socket, API, 8 pin and 4-J slots, GFL stainless J slot wear ring with ground wire		
FT304SS	Thermistor socket, 10 pin and 4 J-slot, GFL stainless J slot wear ring (Canada, Europe)		
Replacement face	plates and dust caps		
FT310SS	API optic face plate assembly, 6 pin, 3-J slots, GFL stainless J slot wear ring (US)		
FT313SS	Optic pattern contact assembly, 6 pin, 4-J slots, GFL stainless J slot wear ring (US)		
FT317SS	Optic pattern face plate assembly,6 pin, 4-J slots, GFL stainless J slot wear ring (Canada)		
FT311SS	API thermistor face plate assembly, 8 pin, 4-J slots, GFL stainless J slot wear ring (US)		
FT314SS	Thermistor face plate assembly 10 pin 4-J slots, GFL stainless J slot wear ring (Canada, Europe)		
FT320	Replacement blue optic dust cap		
FT321	Replacement green thermistor dust cap

EZ-Cept Double and Triple Sockets

Features & Benefits:

FT390

- Stainless steel hardware and contact pins prevent corrosion
- Sockets and caps are colour coded with industry standardized colours which allows for easy identification of socket type (optic sockets are blue, thermistor sockets are green, and float sockets are red, coloured caps are included for optic and thermistor models only)
- Guaranteed for Life J-Slots: Our unique stainless steel alloy J-slot ring will probably outlast your trailer
- Prewired ready for tank installation, no more long hours wiring and troubleshooting your socket connections. Simply bolt to the trailer and connect to the terminal block in the on board monitor
- Internal ground wire and ID chip ready: Both internal ground wire and ID chip are normally
 mounted inside the EZ-Cept housing to protect from the corrosive elements. Or if desired,
 the bolt can be mounted to the trailer frame and the wire connected to the EZ-Cept
 internal wire terminal
- Corrosion resistant hard powder coated housing, stainless steel hardware and contacts and our unique keep dry enclosure design keeps your trailer in service and corrosion at bay. Take a close look at FloTech[™] EZ-Cept - we challenge you to find a better constructed API socket on the market
- Patented, the EZ-Cept has so many innovative features it is covered by US patent 6,824,423. Just another example of how FloTech[™] is leading the way delivering reliability and innovation to our valued customers.

EZ-CEPT DOUBLE SOCKETS

PART NO.	DESCRIPTION
FT390	Optic 6 pin, 3 J-slot, and thermistor 10 pin, 4 J-slot, horizontal mount, GFL stainless J slot wear rings (US)

FloTech[™] Checkmate Overfill/Retain Black & White 2 Wire System Sensor Dummy

	PART NO.	DESCRIPTION
	TAIL NO.	
FT205	FT155	Thermistor sensor dummy (each dummy adds up to 5 compartments)
	FT205	R/OM terminator
TICON THERMISTOR & MEEFOR CL. DW MACCORD. WITH WIT		

DESCRIPTION

100' of 5 conductor cable

Biofuel Compatible

Cables and Strain Reliefs

Features & Benefits:

 Due to the very low current used in overfill systems it's extremely important to use the correct type of cable. The use of other types of cabling often leads to failed overfill systems due mostly to corroded connections. FloTech[™] cable is specially produced with tin plated wire, which when connected correctly using crimp connections, will provide years of trouble free service.

Optic System Testers

Application:

- Standards:
- Materials:

Features & Benefits:

FT520

FT520WOGA

- Used to trouble shoot overfill system circuits.
- Will work with any optic overfill system.
- Durable plastic case, heavy duty cable connectors and test leads.
- The FT520 optic test kit includes a tester and test lead set to test 5 wire optic pulse, five wire optic probes, two wire optic probes, plug & play optic probes as well as onboard monitor & socket outputs. It uses the same permissive signal verification as an optic rack monitor. Optional FT521, FT522, FT523 optic test plugs are available for an entire trailer Go, No/Go test, 2 9-volt batteries (included).

PART NO.	DESCRIPTION		
FT520	Optic system tester, 5 piece set of test leads, batteries and instructions		
FT520CASE	Optional storage case for FT520		
FT520WOGA	Optic system tester, with FT521 API optic 6pin and 3 J slot plug, batteries and instructions		
FT520WOGACASE	Optional storage case for FT520WOGA		
FT521	API optic test plug, six pins and 3 J slots		
FT522	Optic test plug, six pins and 2 or 4 J slots (plug fits both 2 and 4 J slot sockets)		
FT523	Optic test plug J560 type		
10622	Plug-n-Play test lead set		
FT9037	Replacement test lead set for FT520		

Trailer Identification Module (T.I.M.) Chip Reader

Application:

- Features & Benefits:
- Designed to read and test Scully type T.I.M. modules mounted inside API compatible overfill sockets.
- Designed to read Scully T.I.M. chips
- Solid aluminium construction
- Backlit LCD display
- Interchangeable optic or thermistor J-slot screws
- Provides long battery life

PART NO. FT530

FT520 Optic system tester, 4 pc set of test leads, batteries and instructions

Biofuel Compatible

DESCRIPTION

FloTech[™] Truck Tester

Application:

Features & Benefits:

FT555PW

- Allows complete testing of ground bolt grounding systems. Tests ground bolt in forward and reverse just like the rack monitor.
- Reads TIM modules and displays the serial number on the screen
- Automatic mode allows all four tests, or any combination, to run for a complete test of the trailer
- LCD screen displays the final test results and a pass/fail indication for easy rapid testing of the overfill system
- One man "Wet Test" feature FT555 signal an audible alarm sounding a number of beeps that match the wetted sensor
- Microprocessor controlled with designed in flexibility to expand into a number of applications
- Requires two D cell flashlight batteries that can be changed through a side battery access door

PART NO.	DESCRIPTION		
FT555	Truck Tester		
FT555PW	Truck Tester and Test Leads		

FloTech[™] Trailer Identification Module

Application:

Features & Benefits:

- Designed as a drop in replacement for the Scully VIP module, providing you with longer life and reduced costs.
- FloTech[™] TI Module has the same installation and serial number configuration as the Scully design.

PART NO.	DESCRIPTION
FT470	Trailer Identification Module

Biofuel Compatible

attack.

FloTech[™] FT151RL ROM Link Replacement Sensor

Application:	 The FT151RL is designed to replace the complete ROM Link sensor assembly. Simply remove the Civacon sensor housing from the manhole lid and install the FloTech[™] FT151RL or FT151RL-12. Plug the FT151RL into the wiring harness using our connector adapter and the change out is complete. 			
Standards:	 Drop in replacement for the Civacon ROM Link sensors 1554-007 & 1554-0012. 			
Materials:	 Aluminium housing with stainless steel hardware 			
Features & Benefits:	 Trouble free probes: FloTech[™] brand probes incorporate a double elastomer design w seals and secures the sensitive glass optic prism tip. The elastomer seals are flexible allowing thermal expansion and resistance to steam cleaning and petroleum chemical 			

- Unlike our competitors, FloTech[™] probes do not use internal coil cord connectors which consistently fail in moisture. All FloTech[™] Plug-n-Play probes are prewired to our harness connector, which has proven itself in moisture.
- FloTech[™] sensor housings have a sturdy bolt on cap to better seal out water.
- The FT151RL includes an adapter connector to permit interchange between Civacon's Rom link system and the FloTech[™] FT150RL sensor.
- Custom lengths available upon request
- The FT151RL sensor housing contains a Plug-n-Play probe. The sensor housing has a 2" NPT mounting thread, heavy duty stainless steel hardware, and FKM probe seal. Install into either a 2" NPT threaded port or a 2- " diametre tank opening using the gasket and locking nut provided. All screws and rings are heavy duty stainless steel for easy assembly and long life.

FT151RL

FT152RL

PART NO.	DESCRIPTION			
FT151RL	Housing with 7" Plug-n-Play overfill detection probe, with Plug-n-Play harness and ROM link jumper cable connector			
FT151RL-12	Housing with 12" Plug-n-Play overfill detection probe, with Plug-n-Play harness and ROM link jumper cable connector			
FT152RL	Retain sensor with Plug-n-Play harness and ROM link jumper cable			
Replacement Probes				
FT150P	Replacement 7" Plug-n-Play probe for FT151RL only			
FT150P-12	Replacement 12" Plug-n-Play probe for FT151RL-12 only			
FT152RL	Replacement Plug-n-Play probe for FT152P			
10688	Gender adapter			
10605PL	Plug-n-Play harness to monitor connector clip			

Please refer to chart on pages 50-53 for cross references to other manufacturer part numbers.

Biofuel Compatible

API Compatible Rack Cords

- FT600 and FT620 are compatible with API thermistor and optic configurations
- Cord available in coiled or straight lengths
- Cord features a heavy highly visible safety orange jacket to meet trip hazard requirements
- Cord is bonded mechanically and has superior abrasion and oil resistance
- Cord sets are interchangeable with Scully and Civacon, please refer to pages 34-35 for the cross reference chart
- Plug body is machined from 6061 aluminium and is colour coded optic blue or thermistor green
- Button contacts are made from 316 stainless steel to prevent corrosion or galling
- All other hardware is stainless steel
- All wiring is compatible with standard Scully colour codes and wiring number configurations
- The 9 pin conductor is shielded to be compatible with Scully VIP system

V-Ring Swivel Joints

- 1. Body
- 2. Sleeve
- 3. Ball bearings
- 4. Seal retainer
- 5. V-Ring (pressure) seal

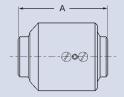

V-Ring Features

- 6. Spring retainer
- 7. Spring
- 8. Ball retainer screw
- 9. Grease fitting
- 10. O-Ring (dust) seal

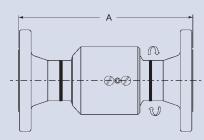

- The spring-loaded triple V-ring sealing system ensures a leak proof seal at either high or low pressure and an extended seal life compared to the conventional single O-ring design
- The 3" 8" carbon steel swivels are manufactured from a special grade of carbon steel with flame hardened dual raceways for greater load bearing capacity and longer life
- The stainless steel swivels are manufactured in 316 grade stainless steel for superior corrosion resistance.
- Available with pressure ratings to 1,000 psi
- Available in carbon steel, stainless steel and aluminium

Single Plane V-Ring Style 20

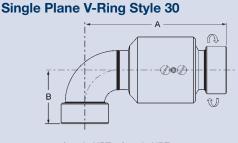

weld end x weld end sizes 2" - 8"

female NPT x female NPT sizes 2" - 8"

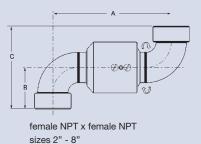

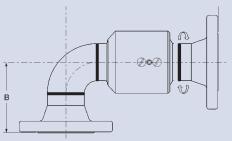

150# ASA flange x 150# ASA flange sizes 2" - 8"

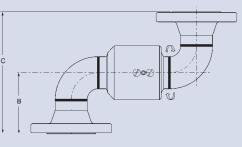

Single Plane V-Ring Style 40

150# ASA flange x 150# ASA flange sizes 2" - 8"

Floating Suction

Swivel Joints

O-Ring Swivel Joints

- 1. O-Ring (dust) seal
- 4. Grease fitting

Ball bearings

- 2. Ball retainer screw
- З. O-Ring (pressure) seal

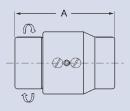

O-Ring Features

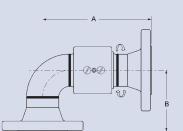

- The O-ring pressure seal ensures a leak-proof seal at either high or low pressure and smoother rotation at lower torque than multiple seal designs
- Spring-loaded PTFE pressure seals are available up through 3"

5.

- Carbon steel and stainless steel O-ring type swivels provide greater strength and corrosion resistance when needed for lower torque applications
- Available in carbon steel, stainless steel, aluminium, brass and iron

Single Plane O-Ring Style 20

150# ASA flange x 150# ASA flange sizes 1" - 4"

tank truck flange x tank truck flange

Aluminium Storz Couplings

Sizes:	1/2" to 8"
Materials:	Aluminium Alloy Optional Materials of Stainless Steel and Brass available
Pressure:	Maximum working pressure 16 bar/232 psi
Options:	Both halves of the coupling are of an identical design with no separate male or female halves. Either half can, therefore, be connected to any similar size of coupling. The hose coupling can be connected to another style, e.g.: hose tail, female or male threaded and blanking caps. It is essential that the distance between locking ears (KA) is the same on all fittings

Dry Disconnect Couplings

When your product is:

- Expensive
- · Expensive to clean up
- Expensive to reprocess or dispose
- · Hazardous to workers or the environment
- · Prone to accidental spillage and product loss

Dry Disconnect Couplings are designed for quick and spill free connection and disconnection of hoses and pipelines. They are used by producers of ink, adhesives, fatty acids, pharmaceuticals, liquid soaps, petroleum, chemicals, agricultural and a wide variety of common caustic and specialty acids.

- Easy to handle -Push and turn - free flow, turn and pull - closed
- Time saving-No need to drain hoses or pipe systems
- Economical-No loss or spillage of liquids at connection or disconnection
- Safety-The valve cannot be opened until the unit is coupled
- Environment friendly-Accidental spillage eliminated
- Safe and reliable-Due to rugged construction

Interchanges with Avery Hardoll and Todo-matic®

Selectivity-

Optional selectivity for preventing contamination due to incorrect and cross-coupling

Product life-

Uncomplicated design and high quality materials ensures longer product life

• Working Pressure -

Aluminium:	260 psi / 18 bar
Brass/ Gunmetal:	360 psi / 25 bar
Stainless Steel:	360 psi / 25 bar

 Optional Seals-EPDM BR - nitrile Kalrez[®] Chemraz[®] Perlast[®]

360 psi / 25 k BR - nitrile

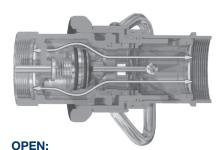

How it works

The principle of operation is identical for all sizes of couplings.

CLOSED:

 Turn and pull It's released - no spillage

Push and turn

It's coupled - full flow

Dry Quick Disconnect Couplers

Hose Unit

- Coupler has built-in swivel
- Stainless Steel ball bearings
- Shaft journal in stainless steel embedded in PTFE to eliminate seizure
- Riveted piston pin to minimise the risk for failure under extreme pressure conditions
- Protecting ring is weather resistant rubber

- Electrically conductive
- All wetted parts are stainless steel
- Rollers for the stainless steel units are Hastelloy[™] C276 on the stainless steel shaft
- Rollers for the Aluminium and Brass units are Aluminium-bronze on the stainless steel shaft

Dry Break Cam and Groove Dry Disconnect Couplings

Compatible with most cam and groove style dry disconnects. The Bayco dry disconnect helps prevent spillage from normal or accidental disconnects. A spring loaded sealing device is designed to snap closed should the valve become disconnected with the poppet open, significantly limiting liquid loss.

Our dry disconnect couplings are available in a wide range of sizes, metals, and seal materials. Please refer to our product description cross-reference chart for details. Special configurations can be designed for your application.

Couplers

- Dry disconnect coupler has automatic closing poppet assembly
- Heavy duty stainless steel crank and link provide long service life
- Stainless steel handle allows product exposure to corrosive chemicals or washdown service
- Strong handle attachment prevents bending of crank assembly
- Fully interchangeable with Kamvalok (OPW trademark) style fittings
- Aluminium fittings have stainless steel internals*
- For pressure ratings at other temperatures, contact the factory

- Dixon EZ Boss-Lock cam arms provide high security from accidental opening due to vibration or snagging on $1 \ensuremath{\frac{1}{2}}$ " and 2" fittings
- Large paddle type cam arms allow for an easy grip on 3" fittings

SAFETY ALERT

Must be used with a DBA style adapter for coupler to operate. Adapter sold separately.

Cam and Groove Style Dry Disconnect D2C Couplings

Application:	Dry disconnects help prevent spillage from normal or accidental disconnection of the connection. D2C series couplings are similar to the DBC series as shown on page 23, except the D2C do not have an internal seal cylinder, therefore the couplings do not automatically close. The D2C couplers are suited to vapour recovery, suction pump and applications where it is necessary to easily drain the hose or piping for cleaning. They can also be used when product retention in hose or pipe is desired, but environmental damage from an open coupling is not a threat.				
Standards:	Use with Dixon Bay and groove type dry		-	red to interchange	with other cam
Materials:	316 Stainless steel EPT (EPDM)*, Kalre selection. Contact I than 21°C (70°F) an	z®, PTFE encapsu Dixon™ at 800-355	lated FKM seals, s -1991 for working	ee part number ch pressures at tempe	art for full seal eratures other
Features & Benefits:	 Helps eliminate the possibility of costly spills Compatible with most other brands of cam and groove style dry disconnects Special configurations can be designed for your application Female NPT Couplers below are used with the DBA adapters shown on page 69 Use standard cam and groove dust plugs, sized one size larger than the dry disconnect size, see chart below for dust plug size selection Stainless steel valve handle locking kit included on valve handle EZ Boss-lock automatic locking cam arms provide added security from accidental opening due to cam arms getting snagged or vibration. Very easy to use, just close the arms and they lock, to open simply lift the lever (possible even with gloves on). * Dependent upon part #, see part number list below for more details.

Bayco Bayonet Style Dry Disconnect Couplings

Application:	Bayonet dry disconnect fittings are ideally suited for the spill-less transfer of petroleum products such as fuel oil, lube oil blending, and tank truck delivery. The design of the Bayco bayonet dry disconnect system ensures a spill free connection, fluid cannot flow until couplings are connected together and the valve is opened. The coupling can then not be disconnected until the valve handle is closed.
Standards:	Manufactured to interchange with other brands of bayonet type dry disconnect couplings. Canadian registration number CRN #OH14055 all provinces.
Materials:	Adapters have anodized aluminium *, brass * or stainless steel * bodies with either anodized aluminium * or brass * poppet valves. Couplers are aluminium. Adapters and couplers are available with either buna or FKM seals.
Features & Benefits:	 Helps eliminate the possibility of costly spills
	 Compatible with most other brands of bayonet style dry disconnects
	Female NPT
	 Rubber dust caps and plugs with stainless steel chains are available to protect the

- adapters and couplers from contamination and damage
- Maximum operating pressure: 85 PSI at 75°F, for pressure ratings at other temperatures contact Dixon[™].
- * Dependent upon part #, see part number list below for more details

Bayco Bayonet Style Dry Disconnect Caps and Plugs

Application:

Materials:

Features & Benefits:

The plugs have a stainless steel chain to secure them to the coupler. • Simple to use

- Low cost
- Durable and flexible rubber
- Prevents contamination of product

BAC-300

BCP-300

PART NO.	SIZE	DESCRIPTION
BCP-200	2"	Coupler plug
BCP-300	3"	Coupler plug
BAC-200	2"	Adapter cap
BAC-300	3"	Adapter cap

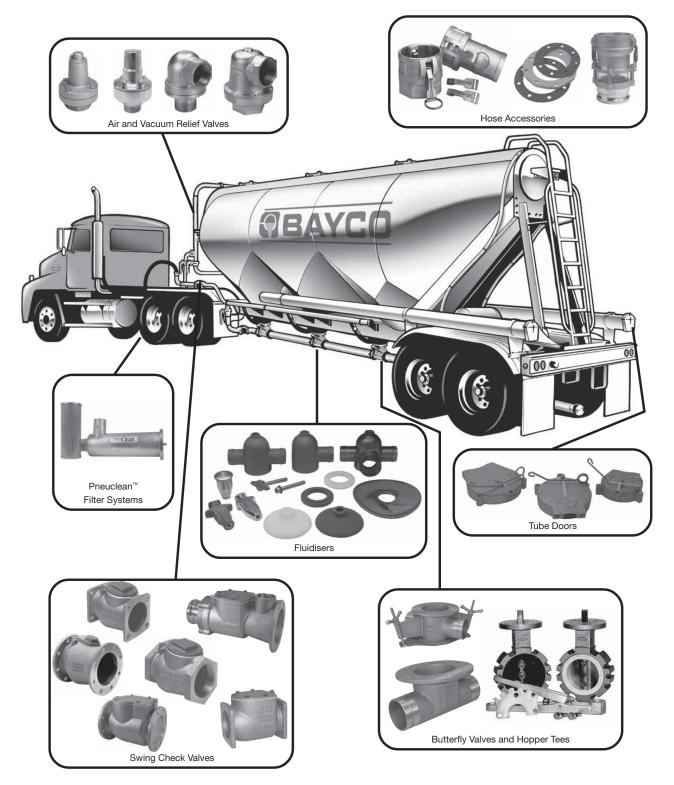

Bayonet dry disconnect caps and plugs keep dirt, debris and water out of couplers preventing build up on the sealing surface that will cause seals to fail prematurely.

The caps have a stainless steel chain to secure them to the adapter chain lug.

Dry Bulk

Dixon Dry Bulk products are designed for use with bulk trailers and truck blowers for the pneumatic transfer of dry bulk commodities such as powders, grains and plastic pellets. Other industrial applications are possible when pneumatic control of air or dry products is required.

Air Relief Valves

- Designed to relieve air pressure at a specific pressure setting (customer to advise when ordering typical setting 15-25 psi)
- Air Relief Flow Rates: A2180 up to 500 SCFM
 A2182 up to 1400 SCFM
 - A3180 up to 1300 SCFM
- A choice of setting tolerances are provided. In addition to conventional field duty tolerances of +3/-0 psi, offers OEM tolerances of +1/-0 psi. The tighter tolerance air reliefs are designated with the prefix A, (A2180, A3180, A2182). Both conventional field duty and OEM tolerance products are of identical construction, however OEM models are identified with an A imprinted before the setting stamp

NOTE: Adjustable models, (A2180ADJ, A3108ADJ) are only available with OEM settings

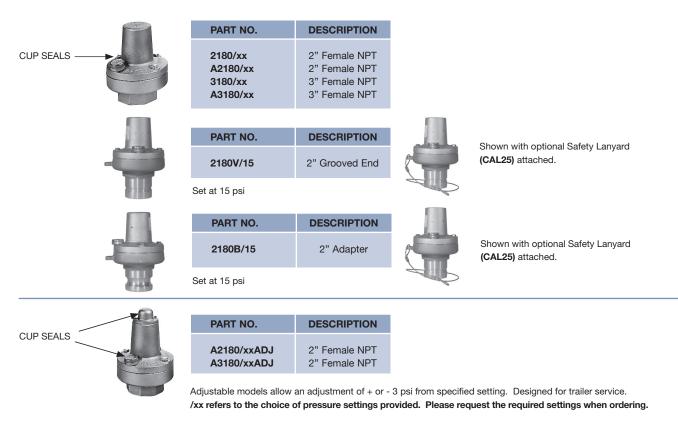

Relief Valve Flow Rates vary depending on the preset relief pressure, for specific relief rates contact Dixon.

Features:

- High Grade Diaphragms White, food grade, and high temperature elastomers for all models
- Suitable for high temperature (to 200°C) and food grade service
- Tamper proof stainless steel cup seals
- Available in a female thread version
- Model 2182 has Silicon rubber poppet which reduces tendency to cake cement, lime etc

Safety Note: Air/vacuum relief valves must be regularly inspected, cleaned and maintained. Product particles can prevent the valve from fully reseating which can lead to early opening/leakage from the valve or can prevent it from opening at all. For ease of removal and installation, to allow for inspections, cleaning and maintenance all 2180 and 2182 series air relief valves are available with either male cam and groove or victaulic grooved connections.

Designed for trailer service

Dry Bulk Products

PART NO. DESCRIPTION 2182/xx 2" Male NPT 2182B/xx 2" Male NPT 2182B/xx 2" Adapter 2182V/xx 2" Grooved End

Designed for high capacity blower or trailer service

/xx refers to the choice of pressure settings provided. Please request the required settings when ordering.

Pneuclean[™] Pneumatic Filtration System

The Pneuclean[™] unit is designed to remove microscopic particles generated by blowers during pneumatic conveying of contaminant-sensitive dry bulk products. Contaminants such as Iron and Hydrocarbons are produced by blowers and can adversely affect dry products such as plastic pellets and food materials.

These filter units are typically used on dry bulk tanker trucks and placed after the blower and before the bulk storage tanker. This in-line pneumatic system is also suitable for industrial applications or wherever microscopic filtration (up to 4 microns) of impurities is required.

Standard units employ 4" inlets and outlets. However, 3" plumbing can be used with available weld-on 4" x 3" female NPT adapters.

Special cartridge-style filter elements have a typical life expectancy of approximately 12 months or 2000 hrs. of service.

4" AW and 4" DW Aluminium fittings may be butt-welded to filter inlet to allow quick coupler connection of hose.

In-Line High Pressure Air Filtration for 4" Air Lines

- FDA Medium with 99.99% maximum efficiency at 4 microns.
- Maximum air flow 1000 CFM's
- Back pressure only .05 psi
- Temperature range -45° to 230°C

- Average 12 month filter cartridge lifespan
- Quick release V-clamp for easy inspection
- Overall weight 26 lbs (11.8kg)

3" and 4" Swing Check Valves

- · Cast Aluminium bodies with Bronze inspection caps
- Safety flapper assembly all flapper assemblies are drilled and pinned and will not come apart
- · Choice of seals: metal-to-metal, Buna or Silicon Rubber seals
- · Choice of models with or without spring loaded flapper
- Full flow design flappers swing out of flow path for maximum flow and low resistance
- · Designs with large caps allow flapper repair/rebuild on unit

Check valves allow one way directional flow only. They are used as a protective safety device to prevent flow reversal should back pressure result. These valves are designed specifically for service with pneumatic equipment which transfers dry bulk commodities.

Horizontal Swing Check Valves

- Swing Check Valves are designed to prevent backflow in plumbing and liquid piping systems, while offering full flow performance with a minimum of turbulence or pressure loss
- A positive seating disc allows flow only in one direction and a screw-in cap provides easy access for periodic cleaning
- For horizontal or vertical use
- Rated to 200 psi WOG
- Brass body & disc
- Temperature range (-4°C to 66°C / -20°F to 150°F)

Limited Warranty

Dixon Group Europe Ltd (herein called "Dixon") warrants the products described herein, and manufactured by Dixon to be free from defects in material and workmanship for a period of one (1) year from date of shipment by Dixon under normal use and service. It's sole obligation under this warranty being limited to repairing or replacing, as hereinafter provided, at its option any product found to Dixon's satisfaction to be defective upon examination by it, provided that such product shall be returned for inspection to Dixon's factory within three (3) months after discovery of the defect. The repair or replacement of defective products will be made without charge for parts or labour. This warranty shall not apply to: (a) parts or products not manufactured by Dixon, the warranty of such items being limited to the actual warranty extended to Dixon by its supplier; (b) any product that has been subject to abuse, negligence, accident, or misapplication; (c) any product altered or repaired by others than Dixon; and (d) to normal maintenance services and the replacement of service items (such as washers, gaskets and lubricants) made in connection with such services. To the extent permitted by United Kingdom law, this limited warranty shall extend only to the buyer and any other person reasonably expected to use or consume the goods who is injured in person by any breach of the warranty. No action may be brought against Dixon for an alleged breach of warranty unless such action is instituted within one (1) year from the date the cause of action accrues. This limited warranty shall be construed and enforced to the fullest extent allowable by applicable United Kingdom law.

OTHER THAN THE OBLIGATION OF DIXON SET FORTH HEREIN, DIXON DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND ANY OTHER OBLIGATION OR LIABILITY. THE FOREGOING CONSTITUTES DIXON'S SOLE OBLIGATION WITH RESPECT TO DAMAGES, WHETHER DIRECT, INCIDENTAL OR CONSEQUENTIAL, RESULTING FROM THE USE OR PERFORMANCE OF THE PRODUCT.

Some products and sizes may be discontinued when stock is depleted, or may require a minimum quantity for ordering.

Dixon Group Europe Ltd is committed to a policy of continuous development, and as such, the above detailed specification and may be subject to change without notice. Dixon Group Europe Ltd reserves the right to change and modify designs and specification without notice.

Pricing

Dixon will always try to maintain pricing, however, with the fluctuation of material cost we may be forced to change prices. Please be aware pricing is subject to change without notice.

Freight/Postage & Carriage Charges

Postage & carriage charges are at the customer's expense and will be charged at current appropriate rates.

Returns

Dixon will allow its customers to return any product for any reason within 30 days of shipment, provided it is received in a saleable condition. The customer must call to receive a CCR number prior to returning goods to Dixon and shipping will be at the customer's expense, unless it is determined Dixon created the reason for the return.

A re-stocking charge of 25% applies to all returns.

Limits of Liability

This catalogue is intended as a product offering. It is not intended to be a user or technical manual. Information in this catalogue is subject to change without notice. All users and distributors of products sold through this catalogue should contact Dixon with questions of use, compatibility's, coupling procedures and life of product. Dixon's full time engineering and test staff is always available to recommend uses and to assist distributors and users with questions.
